### Task 3 Questions 11-15

Read the text below.

For questions **11-15**, write **one** or **two** words, or a number.

Write your answers on the lines **below** the text.

There is an example at the beginning (**0**).

#### Ariel, the mermaid

I grew up on the coast and the sea has always fascinated me. Although most of my friends were too scared to go swimming after watching *The Shark*, the film *Splash* played a huge part in my childhood and I spent lots of time under water. And then I grew up. I thought the big city lifestyle was what I wanted. At 16 I moved to London. Unfortunately I didn't have many friends or family there although I was born there. I was lonely, so I returned home to St Ives and I decided to stay.

I started working as a fitness instructor but I soon quit. I enjoyed watching the waves and the sea and when one evening I saw the most gorgeous sunset, I realised that was where I was meant to be. It hit me – I could be a mermaid.

I bought a mermaid tail and posted on Instagram that people might see a mermaid in St Ives, and then I slipped into the water and swam around the harbour. Initially I thought I'd hop into the sea on weekends, but now I swim every day. I might even turn this hobby into a profession. Now, five years later, I know leaving London was a life-saving decision.

I change into my tail and swim out to sea before I appear swimming towards the beach. I use social media to announce where and when I will be appearing so children and parents can talk to me and take photos.

The doctors and nurses at the hospital, where I work as a receptionist, are incredibly supportive. They call me Ariel like in that favourite children's movie, because they know how much swimming means to me.

**0** Nickname: Ariel

**11** Age: \_\_\_\_\_

**12** Birthplace: \_\_\_\_\_

**13** Present job: \_\_\_\_\_

**14** Previous job: \_\_\_\_\_

**15** Inspiring movie: \_\_\_\_\_

### Task 4 Questions 16-20

Read the text below.

For questions 16-20, choose from **A-F** to complete the sentences.

There is **one** letter that you do **not** need. Mark your answer on the answer sheet.

There is an example at the beginning (**0**).

### Eco-friendly living

You know what it is to be green, but sometimes it seems (**0**) \_\_\_\_\_. However, there are small changes you can introduce into your daily life (**16**) \_\_\_\_\_. And they can save you a lot of money, too.

For example, when you're throwing away objects made of paper, plastic or something else, it's important to think about (**17**) \_\_\_\_\_. Or, when you're not using appliances or you're not in a room, turn off lights and other electronics.

Only buy things (**18**) \_\_\_\_\_. In a consumer culture, it's easy to fall into the habit of overbuying things. Try to walk or bike more but also eat less meat because raising livestock produces large amounts of greenhouse gases.

Turn off water while brushing your teeth and reduce your shower time (**19**) \_\_\_\_\_. Look for beauty and cleaning products that aren't tested on animals. Testing is a cruel process and you can end it for good (**20**) \_\_\_\_\_. It will make a small difference to you but a world of difference to the animals involved.

- A** that you actually need and use
- B** which of them can be recycled
- C** that take very little time or effort
- D** if you only purchase what's necessary
- E** because that can save more than you'd think
- F** if you stop buying from companies that use it
- G** that you don't have time to be eco-friendly

Read the text below.

For questions **21-25**, choose the answer (**A**, **B** or **C**) which best completes each sentence.

Mark your answer on the answer sheet.

There is an example at the beginning (**0**).

### Extreme Weather

The frequency (**0**) \_\_\_ extreme weather events around the world (**21**) \_\_\_ increasing. This spring the West Coast of the United States was struck (**22**) \_\_\_ extreme flooding after hot temperatures followed a heavy winter snowfall. An early summer heat-wave in Europe broke records and caused wildfires across the region. Sudan is in the middle of a humanitarian crisis (**23**) \_\_\_ being hit by severe drought and famine. All around the world, weather events are making the lives of millions more difficult and dangerous.

While climate change often means higher average global temperatures, we (**24**) \_\_\_ see that much more drastic changes influence specific locations. Increased temperatures speed up evaporation creating a lot of water vapour in the atmosphere. This results in intense weather events (**25**) \_\_\_ as sudden hail and flash floods. Leading scientists predict that extreme weather events will continue to rise.
